The supervisors have absorbent in their trucks that they can put down. We also have a contractor that can handle the environmental cleanup. There's no location or address listed so I would need that in order to send that to them.

Hi Sarah,

I'm forwarding an email I received from a constituent regarding hydraulic oil spill from a Sanitation truck. I'm waiting to hear back from him if he was able to get a truck to identify the truck. Just wondered, how does Sanitation handle these concerns?

I will send photos of puddles of hydraulic fluid as soon as I can figure out to do it. Thank you for your response. GONZALO Chacon
